SPHERITY

DPP5.0

Where the EU Registry stands against DPP5.0.

PROPERTY	TODAY	WHY
Evidence graph	**Partial**	JSON-LD/RDF supported; plain JSON is the baseline
Verifiable	**Missing**	Operators are sealed at enrolment; claims are not signed
Access-controlled	**Partial**	Access views and tokens; no policy language
Open standards	**Yes**	W3C semantic stack, CEN, IETF
Open-world	**Partial**	RDF and SKOS are open; extension through versioned layers
Accountable	**Partial**	Verified operators; no mandates for agents
Shared	**Yes**	One EU registry and semantic hub
